

**In the Specification:**

Please amend paragraph [0028] of the specification as follows:

[0028] FIGS. [[9]] 9A, 9B and 10 show the dimensions of a standard rider;

Please amend paragraph [0028] of the specification as follows:

[0041] FIGS. [[9]] 9A, 9B and 10 illustrate the various dimensions of a standard rider of the type depicted throughout the drawings. The standard rider is a 50<sup>th</sup> percentile North-American adult male. All lengths in FIGS. [[9]] 9A, 9B and 10 are in centimeters. The middle of each set of three dimensions represents the standard rider. The standard rider weighs 78 kgs. and has the body build illustrated in FIGS. [[9]] 9A, 9B and 10. The dimensions of the standard rider are a "ruler" by which the dimensions of the various embodiments of the snowmobile of the present invention are measured. Riders 26, 28, 30 are standard riders.
